

Are you interested in Co-Producing with Estonia?

Estonia has a thriving independent Production sector. In 2016 the Estonian Film Institute introduced an incentive which aims to encourage more co-operation between local and foreign film producers to shoot films in Estonia. **A cash rebate of up to a max 30%** of expenses on qualifying expenditure can be applied to full-length feature films, high-end TV series, animation and animation series, documentaries and post-production services.

You are invited to take part in Roundtable Discussions with Estonia's top Independent Producers on Thursday, 16.11.2017 from 15:00-17:00 at the Estonian Embassy in Berlin. (Hildebrandstraße 5)
